2. Visiting Russians.

- a. From December 1952, until sometime in 1953, the representative of the customer for NTB-3 task 13M (51-13M) visited NTB-3. This task was for the development of a meter for measuring sea currents. (Serialnaya Vertushka Dlya Izmerenika Morskikh Tekheniy). The representative was Yu.M.Efremov. No further details are known, except that he is believed to have come, like all customers' representatives in cases of acceptance of equipment, from the USSR.
- b. On 19 April 1953, there was a discussion in NTB-3 between Schoetz and the representative of the customer for task 6M- Senior Lt. A.P. Zologub. Task 6M (apparently 37/6M) is for a "coefficient of reflection meter, 0.5...30 mcs", apparently for ionosphere work.¹
- c. The deputy of A.P. Zologub is Ivanov, (fnu). He was in NTB-3 on 2 April 1953 to discuss task 7M (38/7M)² for a 100 kcs to 30 mcs apparatus for measuring atmospheric interference. Ivanov was also interested in task 26M (10/26M) apparatus for the control of the quality of radio of radio station traffic (field strength meter).³
